DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, lines 8-9; applicant uses the term "receiver". The specification does not teach what is the meaning of such a term. The term "receiver" is considered equivalent to the term "sensor" in examining this claim. Please provide an explanation of this term.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).
4. A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 1744

5. Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-4 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5 and 14-20 of Deal (U.S.P.N. 6,656,424). Although the conflicting claims are not identical, they are not patentably distinct from each other because of the following:

The features of claim 1 of the application are disclosed in claim 1 of the ('424) reference. The term "positions" in claim 1 of the application is considered equivalent to the term "points" in claim 1 of the ('424) reference.

The features of claim 2 of the application are disclosed in claims 2 and 7 of the ('424) reference. The term "enclosed area" in claim 2 of the ('424) reference is inclusive of the term "room" in claim 2 of the application; however, claim 7 of the ('424) reference specifically refers to a room.

The features of claim 3 of the application are disclosed in claims 3 and 15-19 of the ('424) reference such that the feature "in at least two places" is equivalent to the feature "from multiple points" in claim 3 of the ('424) reference. Multiple points can mean 2 and up, but not one.

The features of claim 4 of the application are disclosed in claim 4 of the ('424) reference.
